Securing the web architecture means securing ...

- The network

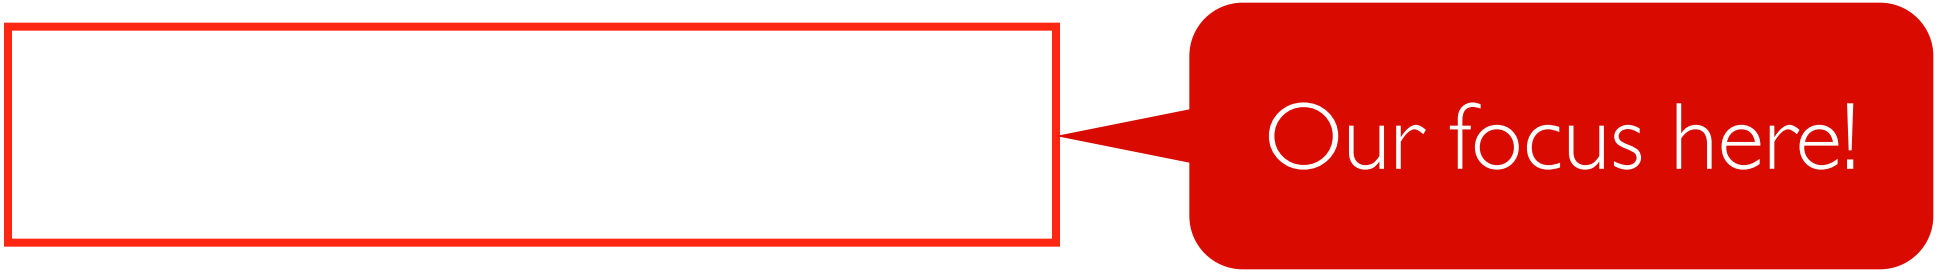
- The operating system

- The administration

- The web architecture

- The database

- The web application



Our focus here!

Securing the web architecture means securing ...

- The network
- The operating system
- The administration
- The web architecture
- The database
- The web application

Our focus here!

Facebook closes hole that let spammers auto-post to walls, friends

Social-networking site plugs a second hole that allowed spammers to automatically post to people's pages.
