

Server-Sent Events

On the server side

Create stream and keep the connection opened

```
app.get('/processing', async function(req, res){  
  res.setHeader('Content-Type', 'text/event-stream');  
  res.setHeader('Cache-Control', 'no-cache');  
  res.setHeader('Connection', 'keep-alive');  
  
  req.on('close', () => {  
    res.end();  
  });  
  
  for (let i=0; i<100; i+=10){  
    res.write(`data: Processing ${i}%\n\n`);  
    await timer(2000);  
  }  
  
  res.write(`data: Processing Done\n\n`);  
  res.end();  
});
```

Send data to down the stream
