# HTTP/2

## HTTP/2 enables multiplexing

➡ send multiple HTTP responses for a given request (a.ka `push`)

• Proposed by Google (called SPDY)

• Adopted as an standard in 2015 (RFC 7540)

• HTTP/2 is compatible with HTTP/1 (same protocol)

# HTTP 1.1

GET /

GET /js/index.js

GET /js/style.css

# HTTP 2.0

GET /

push

push
